WD-IMPEX offers high quality cages for birds and small animals in a wide range of sizes and colours. The company was founded by Witold Mikołajewski, who opened in 1956 the first pet shop in Częstochowa. His intention was to set up a high-class establishment in terms of both professional advice and a wide product range. Over time with the support of his wife Barbara, he decided to broaden his activities to include the production of animal cages. In 1978 he started a production business in a workshop next to his home. His knowledge in the area of zoology, backed up by experience, enabled the development of professional manufacturing. Owing to good quality and a wide range, the firm and its products soon gained recognition on the national market and foreign markets. In 1990 the family firm adopted the name WD-IMPEX and considerably widened its activities. It is now run by the founder's children: Dariusz Mikołajewski and Dorota Jakubow. Today, WD-IMPEX is a dynamically expanding company that continues to constantly develop, upgrade and broaden its product range. It pays particular attention to product quality and customer satisfaction. In addition, it exhibits at international trade fairs and is thus well-known on a multitude of markets. Cages for birds and small animals manufactured by WD-IMPEX enjoy a very good reputation. They are available in shops all over Poland and abroad.

We warmly invite you to view our products on offer and enter cooperation with our professional staff.
